Finloop Becomes an Authorised Distributor for Regulated Hong Kong Dollar Stablecoin HKDAP via Beta Access

Hong Kong, 25 August 2026 — Finloop Finance Technology Holding Limited (“Finloop Holding”), an AI-driven global one-stop wealth technology platform, and Anchorpoint Financial Limited (“Anchorpoint”), a Hong Kong-licensed stablecoin issuer, today jointly announced that Finloop Holding’s subsidiary, Finloop Finance Limited (“Finloop”), has joined HKDAP (“HKD At Par”) Beta Access as one of the initial authorised distributors. Finloop will provide compliant and efficient distribution access and liquidity support for HKDAP.

As Hong Kong’s first regulated Hong Kong Dollar-backed stablecoin, HKDAP has commenced its institutional rollout via Beta Access. Finloop has completed the necessary integration process with Anchorpoint and will be providing services to eligible institutions, corporate users, and professional investors starting from next week. Eligible users can access HKDAP through the Finloop platform, including subscription, redemption, exchange, trading and settlement services.

Finloop holds the Type 1 licence granted by the Hong Kong Securities and Futures Commission and is eligible to provide virtual asset dealing services. Finloop has also developed capabilities across RWA (Real World Assets) issuance and distribution, and has been active in Hong Kong’s tokenisation market. During HKDAP Beta Access, Finloop and Anchorpoint are exploring commercial use cases including cross-border payments, trade finance and RWA tokenisation, demonstrating how regulated tokenised money can support real-economy activities through more efficient settlement and value transfer capabilities.

Cai Hua, CEO of Finloop, said: “Becoming an authorised distributor of HKDAP is an important milestone in the continued collaboration between Finloop and Anchorpoint. Finloop has always been committed to bridge traditional finance and the Web3 world. With a compliant framework, we will work with Anchorpoint to broaden the range of commercial applications for HKDAP, demonstrate the value of regulated stablecoins in real economy, and contribute to building a trusted and sustainable ecosystem.”

Dominic Maffei, Chief Executive Officer and Co-Founder of Anchorpoint, said: “As regulated stablecoins move towards broader adoption, partners that can connect traditional financial services with tokenised markets will play an important role. Finloop’s experience across wealth technology and tokenised assets complements our efforts to expand access to HKDAP. We look forward to working together as the ecosystem continues to develop.”

About Anchorpoint

Anchorpoint Financial Limited is a subsidiary of Standard Chartered Bank (Hong Kong) Limited (SCBHK) and a joint venture established by SCBHK, HKT, and Animoca Brands in February 2025. With the vision of utilising tokenised money to rewire and supplement existing financial infrastructure for the betterment of the real economy, the initial goal is to build and advance the regulated HKD stablecoin “HKDAP” to serve as a secure tokenised medium of exchange for digital economy and to facilitate international payments and capital flows. It is one of the first entities granted with a stablecoin issuer licence (licence number FRS01) by the Hong Kong Monetary Authority under the Stablecoins Ordinance in April 2026.
